**To:** Members of SUMA, SARM, and New North

**Re:** Available Programs

I am pleased to provide a listing of application-based programs available through the Ministry of Tourism, Parks, Culture and Sport and related agencies. Adjudication of all grant applications are the responsibility of each agency.

At the February 2, 2011 dialogue with SUMA delegates, I realized that many programs available to assist municipalities were not well known and access points were not clear. I hope that this list provides adequate access and information to assist in the growth of your communities and this province.
